RESIDENT FALLS

The staff of Golden Brook takes every precaution to prevent residents from falling while in the home. While we are staffed 24/7/365 this does not mean that all falls will be prevented. This is due to times when the Resident is not in direct site of a staff member for various reasons or the resident fails to listen to safety recommendations. If a Resident has a fall in the home, a report will be made of the incident and either the family or appropriate medical personnel will be notified.

COORDINATION OF EMERGENCY HEALTH CARE SERVICES

The Resident, by executing this Agreement, expressly authorizes Golden Brook to engage on the Resident's behalf, in the event of a medical emergency, and at the Resident's sole cost and expense, all medical doctors, medical care and treatment, including, without limitation, any hospitalization that may be required to treat the Resident.

The Resident further releases Golden Brook from all liability on account of charges for any such services, and releases Golden Brook from all liability, responsibility, claims, charges, or causes of action resulting from any medical services provided to the Resident except for any claims resulting from Golden Brook's gross negligence or willful misconduct.

Golden Brook may, at its sole discretion, send the Resident to the hospital, or other appropriate facility, if it believes that the care and safety of the Resident or other Residents cannot be provided by the staff of Golden Brook.

In the event of an emergency, including, but not limited to, accident, fire, flood, power outage or act of God, Golden Brook reserves the sole right to arrange for continuous, substitute accommodation and care of the Resident. This includes, but is not limited to, transferring the Resident to another assisted living community and/or contracting with other parties or providers capable of furnishing the services covered by this Agreement and substitute services shall be the sole responsibility of the Resident.

If Golden Brook determines that care more than that provided under this Agreement is necessary for the health or safety of the Resident, and the Resident does not obtain or permit Golden Brook to obtain such care, then Golden Brook shall be released and discharged from all liability for the lack of such care.

If a Resident has a valid Do Not Resuscitate ("DNR") order in place, Golden Brook will abide by this order. The DNR will take precedence over traditional emergency health care services. In the event a Resident has a medical emergency, and has a DNR, the Responsible Party will be notified as soon as operationally possible.

CHANGE IN CARE AND COST OF CARE

Golden Brook will determine the level of care needed based on our evaluation of the Resident. The initial stage of care will be determined by our Resident Facility Administrator.

When the health or mental condition of the Resident declines, there likely is a need to increase the level of care the Resident receives to ensure their safety and wellbeing. With an increase in care, there is an increase in cost to provide this care. Golden Brook and the Resident's medical practitioner will monitor the Resident for changes in condition and document it via the Care Assessment Form. If there is a

change in the monthly cost of care, Golden Brook will notify the Responsible Party.

RESIDENT PERSONAL PROPERTY

Golden Brook will maintain an inventory of all personal property identified by the Residents. It is the responsibility of the Resident to inform the Residential Facility Administrator of any personal property that is brought into the facility.

The procedures are as follows:

1. Admission: At time of admission, the Resident is required to complete the form "Resident Personal Property Accountability" form. It is to be signed by both the authorized representative and the Residential Facility Administrator, and a copy will be given to the Resident and the original will be kept in the Resident's file.
2. Modification: Anytime a Resident brings personal property or valuables (valued at \$50.00 or greater) into the facility, the Resident or representative is responsible to inform the House Manager, at which time the property will be added to the inventory. If at any time the Resident removes an item listed on the form the House Manager must be informed so the item can be removed from inventory. Any item not accounted for will be reported as missing to the Resident or Family.
3. Safeguard In Case of Death of Resident: Upon a Resident's death, Golden Brook will secure the Resident's room and thereupon audit the Residents personal property. The staff will assist the family in removing the personal effects as soon as practicable.

Recorded losses will be kept on file and made available to state licensing, and law enforcement. Golden Brook will evaluate each loss and determine if any further action should be taken. The staff of Golden Brook will make every effort to operate with no losses to its Residents.
6. Money: We suggest that the Resident keeps no money in the facility. No staff member shall keep personal belongings or money for a Resident. No money will be held by Golden Brook on behalf of a Resident.
 - a.
